Please label all samples clearly and courier samples overnight to:  
DRL c/ Invermay Research Centre, 176 Puddle Alley, Mosgiel 9092

## Notes and Pricing

Please contact the lab if you need assistance sourcing any sample supplies 03 489 4832 or [drl@drl.net.nz](mailto:drl@drl.net.nz)

### Serum Samples:

- Blood (red or purple top tubes; min. 3ml).
- While refrigeration is desirable it is not essential; please protect samples from extremes of heat or cold.
- Do not freeze.

### Milk Samples:

- Please use screwtop plastic containers for milk samples. Min. 3ml per sample.
- Please keep refrigerated and pack with ice packs in a chilly bin.

### Individual Faecal PCR:

- Please use screwtop plastic containers for dung.
- Use a fresh glove to collect each sample and avoid cross contamination of samples.
- Min. 3g per sample, ideally 5-10g (1 tablespoon approx.)

### Pooled Faecal PCR: (Pools of 10)

- If sample pooling is requested, send individual samples as we will carry out the pooling here, that way we can easily retest individual samples from positive pools as required.
- If a pool is positive, we will contact you concerning your preference for individual sample re-testing.
- Please use plastic screwtop containers for dung. Use a fresh glove to collect each sample and avoid any cross contamination of samples.
- Use a fresh glove to collect each sample and avoid cross contamination of samples.
- Dung samples freshly deposited on the ground are acceptable as long they can be unambiguously linked to their originator and land on an otherwise clean surface.

## Terms and Conditions

DRL retains ownership of all information and intellectual property derived from the analysis of samples submitted.

All invoices are to be paid by the 20th of the month following (normal commercial practice).

If any debt remains unpaid after 90 days, it will be referred to a collection agency. Collection costs will be incurred by the debtor.
